

CORPORATE PARTNERS PROGRAM

FASTRAC MARKETS

CORPORATE PARTNER

Fastrac Markets is the leading convenience store operator in Central New York, employing approximately 300 people at 44 store locations across the state and its corporate support center in Syracuse. The company also partly owns and/or supplies fuel to over 40 other locations throughout its service area. Locally owned and operated, it was a new name in the field when created in 1998.

The company was founded by means of a merger between Bull Bros. Inc., Clark's Petroleum and Glider Oil Company, each with a history of its own and a long-standing commitment to New York communities. Bull Bros. was founded in 1959, Clark's Petroleum in 1923 and Glider Oil in the 1940's. The primary objective of the merger was to build a new company that would be stronger, more innovative and focused on the needs of our guests for the twenty-first century. According to one of its owners, "Ten years ago, there were many in the industry who did not think the company would be around for two years, much less already having moved beyond our ten year anniversary in 2008. It's a testament to the dedication and forward thinking of all of our employees as well as the commitment to Fastrac by our many customers."

Fastrac Markets is very active in the communities it serves and supportive of charitable programs and events. Recently, \$45,000 was awarded to six different school districts in Central New York as part of its annual "Funding the Classroom" grant program. Fastrac Markets is proud to have been able to provide annual grants to local school districts for the past eight years. Over \$230,000 has been awarded since the program's inception. The goal of each "Funding the Classroom" grant is to assist schools with necessary funding for equipment and new technology to enhance and grow the classroom learning experience for all students. Grants have been used to purchase a variety of classroom equipment that otherwise would not be funded through the normal school budget process at 39 different school districts in New York State. Fastrac Markets cares about young people and providing for their future.
